Workshop on
Bioinformatics and Proteomics
December 28 – 30, 2010

Organized by

NATIONAL CENTER FOR
PROTEOMICS
UNIVERSITY OF KARACHI
INVITATION

It gives me immense pleasure to invite you to attend three-day Workshop on Bioinformatics and Proteomics to be held in Karachi, Pakistan, during December 28-30, 2010. Experts and researchers from National Center for Proteomics are ready to provide nice learning environment in the field.

We also hope that through this workshop, stronger research ties can be fostered. On behalf of the organizing committee, I wish you all a very warm welcome to Workshop in December 2010.

VENUE

The event will be held at the Bioinformatics facility of National Center for Proteomics, University of Karachi.

SCOPE

Bioinformatics and Proteomics, both are emerging disciplines within Pakistan. The objective of the current workshop is to impart basic and advanced training of available tools of bioinformatics and their use in research with particular emphasis on proteomics. Protein databases, structure prediction, docking, drug designing, MD simulations and its relation to proteomics are some topics that are expected to be covered during this event.

WHO SHOULD ATTEND

This workshop is specifically designed for fresh graduates who themselves have little or no knowledge of bioinformatics and proteomics. Students interested to pursue their career in these disciplines or in biological sciences may also find this workshop useful, which is expected to be first one in the series.

SCIENTIFIC PROGRAM

This three-day workshop will consist of lectures and hands-on workshop training sessions. Special events will be arranged to ensure a lively interaction between scientists and workshop participants.
